

**COMER'S VACUUMS, LLC** is a full service retail business, which sells commercial and residential vacuum cleaners, buffers, steam cleaners and central vacuums to residential as well as commercial customers. In addition, we repair and service this equipment also. Our technicians have over 15 years of experience in the industry.

**Comer's Vacuums, LLC** provides over 400 different commercial and residential chemicals such as floor wax, stripper, cleaning solutions/supplies and carpet cleaning solutions just to name a few.

## **CENTRAL VACUUMS**

**Healthy Home.** The EPA has identified indoor air pollution as one of America's most serious environmental health problems. The American College of Allergists also reports that 50% of all illnesses are caused by, or aggravated by, polluted indoor air. No wonder indoor air is one of the top priorities for today's homebuyers.

**With more than 3-4 times the suction and power of uprights,** Central Vacuum cleaning systems trap 100% of all vacuumed dirt, dust and allergens and transport them away from the living area.

**Bagless for Convenience and Cleaner Indoor Air.** Unlike traditional vacuums, Bagless Central Vacuum Systems are convenient for cleaning your entire house without recirculating the dirt, dust mites, pollen, dander and other allergens back into your home. Traditional vacuums spread dirt, dust, and allergens around your home and recirculate them into the air you breathe.

**Therefore, Central Vacuum Cleaning Systems** makes for a cleaner home and healthier living, even if you don't suffer from allergies or asthma.

## **INSTALLATION RESUME:**

We have been installing Central Vacuum Systems for over 15 years and we are licensed and insured. Because of our years of experience in installations and product knowledge, it allows us to provide quality customer service. In addition, we go to great lengths to ensure that all our customers are completely satisfied and thoroughly informed.
